## Experience

**Web Developer Intern, [IBM SkillsBuild](#) & [CSRBOX](#)**

June 2023 – August 2023

Mumbai

- I participated in a three-month academic internship specializing in front-end web development.
  - During this time, I acquired practical experience with HTML, CSS, and JavaScript.
  - applied knowledge from a foundational course in these technologies.
  - This allowed me to design visually appealing web interfaces.
- 

## Projects

### [Fit-Lift](#)

**Technologies** – ReactJS, TailwindCSS

- Developed an interactive workout generation platform using ReactJS, allowing users to personalize their fitness routines by selecting workout categories such as Bro Split, Individual, Body Builder Split, and Upper Lower.
  - The platform dynamically provides exercises based on the chosen body part, ensuring tailored workout plans. Incorporated detailed exercise descriptions, including muscle groups, reps, rest time, and tempo guidelines.
  - Designed a robust user interface enabling real-time updates on workout progress, with features like percentage-based progress tracking (e.g., sets completed vs. total).
  - Enhanced user experience with intuitive navigation and responsive design, achieving 90% user satisfaction in beta testing.
- 

## Education

**Bachelors of Science (Information Technology), University of Mumbai**

Grade: 8

---

## Certification

### [Microsoft Azure Fundamentals AZ-900](#)

June 2023

- Completed courses covering essential cloud concepts, including cloud models (IaaS, PaaS, SaaS).
- Core Azure services (virtual machines, storage, databases), and principles of cloud security, privacy, and compliance.

### [Microsoft Security Compliances and Identity Fundamentals CS-900](#)

June 2022

- Completed courses focused on fundamental cybersecurity concepts, including Microsoft security, compliance, and identity solutions.
- Covered key topics such as security principles, identity and access management, threat protection, information protection, and governance.

### [Web Development Fundamentals Issued by IBM SkillsBuild](#)

August 2023

- Participated in a three-month academic internship specializing in front-end web development, where I acquired practical experience with HTML, CSS, and JavaScript.
- 

## Skills: Tools & Technology

- **Languages:** React, Python, JavaScript, PHP, SQL, jQuery.
  - **Database:** MySQL, MongoDB.
  - **Tools:** Git, GitHub, Copilot, OpenAI, Power BI, Postman, Android Studio.
  - **Platform:** Microsoft Azure, Amazon Web Services, Windows, Linux Administration.
  - **DevOps:** Docker.
- 

## Other Activities

**Hobbies:** Chess, Cricket, Reading.

**Languages:** Proficient in English B1 Level.
